A clearer path from idea to impact.

One shared workspace for the teams building what comes next.

SERIES A OVERVIEW / SEPTEMBER 2026

Good work gets lost between tools.

Project context fragments as a team grows. Decisions slow down, ownership blurs, and the latest version becomes a question.

01

Scattered context

Plans, files, and decisions live in separate places.

02

Unclear ownership

A simple handoff becomes another meeting.

03

Invisible progress

Teams discover blockers after a deadline slips.

A workspace that keeps the story together.

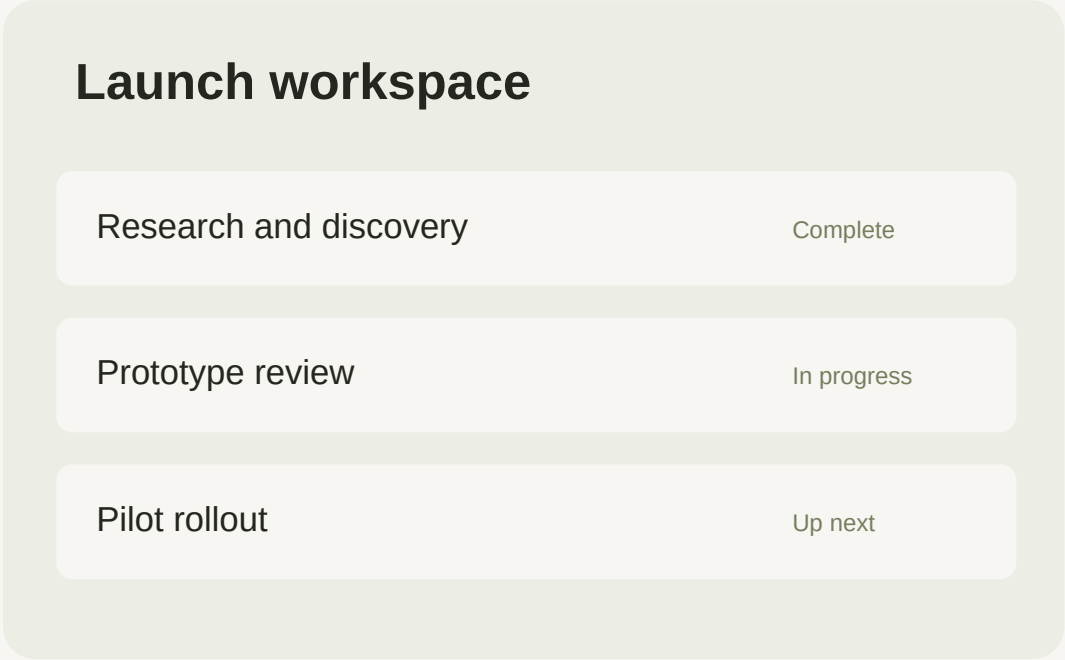

Meridian connects plans, decisions, and progress in a single readable view.

Start with a clear plan

Give every initiative a purpose, owner, and next step.

Keep decisions close

Capture the reason behind a change where the work happens.

Clarity at every stage of the work.

1

Plan

Set the outcome and make ownership explicit.

2

Align

Bring the right people into a shared decision.

3

Deliver

Track the next milestone and close the loop.

Designed for distributed teams with ambitious plans and a practical need to move.

Small teams. Meaningful momentum.

An example of the signals we would review during a product pilot.

24

Pilot workspaces

Fictional customer sample

82%

Weekly team activity

Illustrative engagement

4.6 / 5

Ease of collaboration

Example survey result

All companies, figures, and results in this deck are fictional examples created for AnyShare testing.

Grow with the teams we serve.

A simple subscription model gives small teams room to begin and growing organizations a reason to stay.

TEAM

$12

Per member per month. Shared workspaces and core collaboration.

BUSINESS

$24

Per member per month. Advanced controls and portfolio reporting.

Build the foundation. Then expand.

Q4 2026

Core experience

Improve planning, search, and team onboarding.

Q1 2027

Connected workflows

Bring calendar and communication context closer.

Q2 2027

Organization view

Make progress visible across programs and teams.

Illustrative roadmap for a fictional company. Dates are sample content, not product commitments.

Let's build a clearer way to work.

Explore the product, review the operating plan, and continue the conversation.
